ALPUS H. HSU
PRIMARY EXAMINER

1. The following is an examiner's statement of reasons for allowance:

The subject matter of all claims is allowable over the prior art of record because all prior arts fail to teach or suggest a method, an apparatus, a user terminal, or an access point for processing data in a wireless multiple-input multiple-output (MIMO) communication system by: selecting a spatial multiplexing mode from among a plurality of spatial multiplexing modes, wherein each of the plurality of spatial multiplexing modes supports simultaneous transmission of multiple data symbol streams via multiple spatial channels of a MIMO channel; spatially processing a first plurality of data symbol streams in accordance with the selected spatial multiplexing mode to obtain a plurality of transmit symbol streams; transmitting the plurality of transmit symbol streams from a plurality of antennas and via a first communication link; receiving a plurality of received symbol streams from the plurality of antennas for a second communication link; and spatially processing the plurality of received symbol streams in accordance with the selected spatial multiplexing mode to obtain a plurality of recovered data symbol streams, which are estimates of a second plurality of data symbol streams sent via the second communication link.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alpus H. Hsu whose telephone number is (571)272-3146. The examiner can normally be reached on M-F (5:30-3:00) First Friday Off.
